WHIG NOMINATIONS. For President,

For Vice President,

WILLIAM A. GRAHAN OF NORTH CAROLINA.

Scott and Victory! THE WHIG CAMP FIRES LIGHTED—THE

The Scorr men of Milwaukee assembled at Market Hall on Saturday night, to respond to the nominations of the Whig National Convention. The light of blazing bonfires and the inspiriting strains of martial music, were the signals for the nuster, and attracted to the spot the largest polifical gathering we have ever seen in this city. The spacious Ifall and its large gallery were densely filled, and during the entire evening there was a constant stream of people passing in and out of the edifice. Nor was the chranter of the

meeting less imposing that its numbers. The Merchants, Forwarder, Millers, and Manufacturersand Lawyers and professional men of our City were numerously represented. The Mechanics and Working Men of Milwaukee; the Sailors belonging to our port; and the Farmers from the terns in our immediate vicinity, were there in their strength. There too, we rejoice to say, were large numbers of our Adapted Citizens, German, Irish, Hollanders and Freuch; who have "conquered the prejudices" so carefully instilled into them by Loco Foco Foco demogogues; who know GENERAL SCOTT, and what he has done for his country; who have found out the difference between Democracy in NAME and Democracy in PACT, and who are fully determined, in the coming contest, to culist for the war under the ever

rictorious banner of Wingield Scott.

The meeting was organized shortly after eight o'clock by calling Jao. H. Tween's to the Chair The record of the proceedings will be found in another column. The nominations of Scorr and GRADAM were ratified with a shout. The resolumone reported by the Committee were adopted by acclamation. Not a single dissenting voice was heard. No Whig of Milwaukee refuses to support the ticket. Whatever their personal preforences may have been, previous to the decision of the Whig Convention, with that decision they are all content. They will march to the conflict with unbroken front and without asingle missing man and they will have the "aid and comfort" of hundreds and thousands among their follow-citizens, who have hitherto followed, the flag of Loco Foccism, but who now strike for Scorr and VICTORY; for INTERNAL THEROVEMENTS and PROrection to Home Industry; for the Intenests or THE WEST and the HONOR AND WELFARE OF THE

Animated speeches were made during the course of the evening by Mr. Sharter of Sheboygan, and Messes. Arnold, Tweedy, Randalt and Orton, of this city, in English, and by Mr. Robber in Octron. It was past 11 o'clock before the meet-ing finally adjourned. We regret that we cannot lose the record of this glorious gathering with adverting to the attempts of some small men among our opponents to prevent the meeting altoor, failing in that, to disturb its proc pgs: The Committee of Arrangements had made contract and furnished the powder, for firing a salute of One Hundred Guns, but during Sature the coupon was hid and the men who ser it were conxed, or bribed to keep out of the way and refuse to fulfit their agreement.

The halyants on the flag stuff of the Market House were muliciously cut, so that no colors could be raised, and men came into the Hall at night, with the evident purpose of annoying the speakers, and interrupting the meeting. But these tricks were all so much powder wasted, and only recoiled upon their projectors. It needed neither cannon, nor flag, nor bonfires, nor music, to rally the friends of Wistigun Scott. The simple notice that a Ratification Meeting was to be held, would have sufficed to call them out in overwhelming numbers; for the heart of the AMERICAN Profer is in this work, and their determination to raise the Great Captain of the age to the Presidency of the United States, is already a fixed fact-

About These Days:

How many of our readers have been struck with the coincidence between the enthusiasm now aroused among the people for Winstein Scott, and that which nerved the bearts and strengthened the hands of his gallant soldiers on the plains of Chippewa, thirty-eight years ago to days.
It was on the night of the 3d of July 1814 that Gen. Scott crossed Niagara river towards Ft. Erie, which was immediately evacuated by the British forces. Early on the morning of the 4th Scott's columns were put in motion and advanced upon them, driving their troops, commanded by the Marquis of Pweeddale, through all that days sixteen miles, and until the latter joined General Minll, stationed with the main body on the plain of Chippewa. The morning of the 5th was occupied by various manueuvering and skirmishing, the forces being nearly equal (the Americans forces being nearly equal (the Americans 1900, and the British 2100,-1600 of the latter the reterans of the Peninsular War) and acting rantionaly. The famous bayonet charge of Scott's troops at Chippewa is a matter of history. The dful, and the British column was Lorue down with the impetuosity of the assault, and broke and fled, losing over 500 of its num-tier, in killed and wounded. The disgrees of the surrender of Hull was wiped out-the misfortune caused by the bad conduct of the militia at Queenstowh was atoued for-and as the roar of the pursuing cannon usingled with the sound of Ningam's tumbling waters, the charm of British avincibility was broken.

YERY Ausuro.-Such is, in fact, the policy of the Loco Foco press, in parading before the pub-lic a collection of letters (all of one side, however) concerning a difficulty which occurred between Jackson, Clinton and Scott, shortly after the war of 1812. We shall give the history of this case shortly. Meantime, it is only necessary to say that long before the decouse of Andrew Jackson, he did justice to the character and motives of Gon. Boots. When quilification was threatening the peace of the country, and when South Carolina was in a state of absolute rebellion, Gen. Jackson elected Gen. Scott as the most fitting agent-ne so chastise the turbulent spirits of the South-bu to enter upon a peaceful negotiation to prevent the pecessity of a resort to force. Gen. Cass was then Societary of War, and in communicating Gen. Jackson's wishes, the Secretary assured the Soldier-Diplomatist that Old Hickory had the utmost confidence in him as a Soldier and Patriot, and relied upon his sound judgment to appears the threatened storm. The result demonstrate the wisdom of the selection. Peace was effected The dark cloud was dispersed; and Gen. Scott returned to Washington as proficient a Diplomating passes, as he had been a Hero in war.

"Col. Scorr. (now the great Whig Chieftals for the Presidency.) and Totten Gibson, were laked prisoners by two Indians at the close of the lattle of Queenstown—Capt. Mr. Rossian closed by pledging one third of the German vote of Wisconson to Winffeld Scott, which announcement was miled with the most enthusiastic applause.

Mn. J. McM. Snarren of Sheboygan, the Whig Speaker of the last Assembly, was next summon-ed to the stand, and made a telling speech; concasting the candidates and the platforms of the to parties, and enumerating the manifold remons by the North West should give its carnest ipport to the party and the policy, whose candiate is Gen. Mr. Tweedy spoke with great earnestness and animation and was loudly applicated.

At the close of his remarks Mr. L. L.

1. Resolved, That the effort now in progress to some a noble and beautiful editine, honorable to our city, and worthy of the cause of Liberal Fermale Education, especially deserves the hearty cooperation of every hady in our community.

2. Resolved, That the advantages of an Institution of this bind, which aims to give a thorough, extensive, and unsectarian education as cheaply as possible to all our daughters, whother of the rich or the poor, whether born in America or elsewhere, qualifying them for tenchers, and for every station to which they may be called in life, are eminorally important and universal, and should, and do, entitle the Institution to the gratifieds, and the prompt and liberal aid of all our existence.

3. Resolved, That the ladies of this Society, h Delegates to the National Convention, being touder, and the ladies of this Society, in order that the mass of our citizens may have some ferward and addressed the meeting in a speech of this works length. Mr. Anson detailed the proposal and pecuniary instead a "dollar subscription" throughout the city, to aid in controllings of the Convention, and gave in brief, the reasons which had induced himself and two or

Some 1800 to 2000 dollars more heartily in the nomination of Gen. Scorr, and had of October. Some 1800 to 2000 dollars more pledged for it, in the Convention at Baltimore, the funds are however required, and the Trustees are

I believe the thought of the Ladies is, not at all s excuse those who are able to make large subscriptions, but practically to culiat the whole comnunity in the enterprize, as the Washingto Menument is made, by the contributions of the millions, to proclaim the gratitude of all his patriotic posterity, to the "Father of his Country."

I apprehend we do not realize the importance to Milwaukee of this Educational effort. I would the to state two or three very significant facts .--Some time since one of the most valuable, cultivated and refined families of an Eastern state were strongly inclined to settle in Milwankee, but the facilities for thorough education were wanting, und this scitled the question. Had the buttresses of the Normal Institute and the walls of other terary Institutions been up and telling their story, who can say how many such families would have decided to make the Amphitheatre city their

Quite recently, a prominent citizen informs me, ome gentlemen of wealth and refinement from the East were visiting him. They were looking for a home in the West. They had examined all the towns west of Buffalo, and gave Milwankee the decided preference. But the vital question was, what are your Educational advantages?--They had families of daughters which they wished to educate thoroughly, and without sending them away from home, that place which no other is ara thans an necessist o the Normal Institute, and he was persuaded that his friends would be determined by it to remove to Milwankee.

That, Messra Editors, is the kind of population Milwaukee needs; and shall we not use the appropriate means of bringing them among us? The east has helped us liberally in this enterprize. If we will put our own shoulder to the wheel, we can immediately secure an Institution of the first order. I know the times have been hard, but the amount needed is not large. There is an organization recently formed at the East, embracing many of the most distinguished ladies of our country, for the purpose of advancing the cause of Liberal Female Education. The

first work they have proposed to themselves it to raise 20,000 dollars for the endowment of the Normal Institute at Milwaukee, if the citizens aget the building. Shall there be any delay in furnishing the building for an Institution whose roots are branch ng out into the best female hearts in our land

We would respectfully call the attention of our anny friends, and the public generally, to an in-current we have recently imported from Paris, alled a from which the above cut was taken. By it we can take the exact slape, and marrinely fit the most irregular heads. Many can testify to the inconvenience, and anneyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this incentionsontrivance, this very great anneyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times in our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witterssing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Cash System (which all will tradity acknowledge to be the beat,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$4.25; surpassing any \$5 that sold in this city.
